Deployment Build Number: - 2826 - 2845

Key highlights

Problem History

Searching with ICD-10 codes functionality in Problem History

Rx

Add "Super Notes" functionality in Rx Note

Build Description

Build Description	Commit Build NO
1. Regarding assign Result for Records	2827, 2828
 Call procedure to docpadmgr.labresult for Unsolicited result assign in patient chart in docpad 	2828
3. DB Version description is make short	2830
 Email alert as notice will generate on some issue found for CCD file sending problem to Patient portal DHIT 	2831, 2832
5. Duplicate Pharmacy display issue	2833
 Duplicated PMS ID warning while Saving/Updating Clinic Information from Admin module has been disabled as it is not required 	2834
 Can't close patients chart because deleted order warning 	2836
8. Snomed code search issue Fixed	2837
Changes for if Problem was deleted then add css "text-decoration:line-through"	2839
10. Searching with ICD-10 codes functionality in Problem History also without open encounter	2840, 2841, 2842, 2844
11. Add "Super Notes" functionality in Rx Note	2845

1) Regarding assign Result for Records

Steps:-

- 1) Login into Records
- 2) Tap on Unlinked Test Results
- 3) Tap on Patient name from the above list which you want to link with past orders. Here you can view the result and also you are able to link with patients past order. Select the "Done Button".

4) Email alert as notice will generate on some issue found for CCD file sending problem to Patient portal DHIT

Steps:-

Backend Changes

5) Duplicate Pharmacy display issue

- 1) Login into Docpad
- 2) Tap on Incomplete Notes
- 3) Tap on Rx
- 4) Tap on Select Routing link
- Here search pharmacy
 Here duplicate pharmacy display is solved

6) Duplicated PMS ID warning while Saving/Updating Clinic Information from Admin module has been disabled as it is not required

Steps:-

- 1) Login into Admin
- 2) Tap on Clinic Information
- Tap on Done button Here PMS ID warning is display, now it is removed

7) Can't close patients chart because deleted order warning

- 1) Login into Docpad
- 2) Tap on any Patient
- 3) Tap on Orders
- 4) Search & Select Order
- 5) Delete selected Orders
- 6) Tap on Note tab
- 7) Tap on Done button

Warning These orders have already been processed and cannot be o manually the Lab or concerned person to notify them of you	deleted. Please contact ur requirement.
Order	Status
Refer to: Podiatry	
	Done

Here Warning of Deleted order is coming, so patient can't close that note, now it is solved

8) Snomed code search issue Fixed

Steps:-Backend Changes 9) Changes for if Problem was deleted then add css "text-decoration:line-through"

Steps:-

- 1) Login into Docpad
- 2) Tap on Patient
- 3) Tap on Problem History
- 4) Delete any Problem Here deleted problem is displayed with strikethrough line
